Notes:

1. Electronic: Payment instructions originating from electronic banking channels (HSBC Connect, HSBCnet, SwiftNet)
2. Manual/ Smart form: Payment instructions originating through a branch and are only offered in exceptional circumstances
3. Payment investigation: When an HSBC customer raises a special request to HSBC for investigation of an issued payment instruction.
4. These are HSBC Egypt charges only. Other charges including beneficiary bank, correspondent banks or other HSBC Group office charges may be deducted from the remitted amount.
5. For any remittance, the beneficiary may be required to pay additional charges depending on the conditions set by the payment system, remitter, remitting bank or beneficiary bank. For example, for outward payments when the ordering party selects to pay all charges, HSBC will process the transaction with the charge type 'OUR', however, it is important to note that some local country clearing systems do not recognize this charge type including payments that are cleared through the Federal Reserve or Clearing House Interbank Payments System (CHIPS) in the USA. For this reason, correspondent banks in the USA may change the charge type from 'OUR' to 'SHA' or 'BEN' when routing the payment to the final beneficiary bank.
6. Inward payments received by the customer may be subject to correspondent banking fees, which may be deducted from the proceeds of payment.
7. The prevailing exchange rate will apply to all cross-currency transactions.
